

## September 2026 Security Postcode and Max Loan Matrix

Below information to be used as a guide. Details contained below will change as required.

### Standard Residential Properties Maximum Loan Size and LVR Matrix

Below table applies to 30-Year and 40-Year Standard Residential Home Loans

|                   | LVR (%)       | Standard Documentation |             |             |
|-------------------|---------------|------------------------|-------------|-------------|
|                   |               | Inner-City/Metro       | Non-Metro   | Regional    |
| Existing Dwelling | 0 - 70.00     | \$3,500,000            | \$3,500,000 | \$3,000,000 |
|                   | 70.01 - 80.00 | \$3,500,000            | \$3,500,000 | \$2,000,000 |
|                   | 80.01 - 90.00 | \$3,500,000            | \$3,500,000 | N/A         |
|                   | 90.01 - 95.00 | \$3,500,000            | \$3,500,000 | N/A         |
| Construction      | 0 - 70.00     | \$3,500,000            | \$3,500,000 | \$3,000,000 |
|                   | 70.01 - 80.00 | \$3,500,000            | \$3,500,000 | \$2,000,000 |
|                   | 80.01 - 90.00 | \$3,500,000            | \$3,500,000 | N/A         |
|                   | 90.01 - 95.00 | \$3,500,000            | \$3,500,000 | N/A         |

### Commercial Properties Maximum Loan Size and LVR Matrix

|                   | LVR (%)       | Standard Documentation |             |             |
|-------------------|---------------|------------------------|-------------|-------------|
|                   |               | Inner-City/Metro       | Non-Metro   | Regional    |
| Existing Dwelling | 0 - 70.00     | \$3,500,000            | \$3,500,000 | \$3,000,000 |
|                   | 70.01 - 80.00 | \$3,500,000            | \$3,500,000 | \$2,000,000 |

The loan to value ratio (LVR) is calculated by dividing the mortgage loan amount by the lower of the purchase price (in the case of a purchase) and the current value as indicated in the formal valuation.

Where the application is a property purchase, the LVR is the amount as a percentage of the purchase price or valuation, whichever is the lesser of the two (please refer to our policy regarding off the plan purchases and favourable purchases).

Where the application is a refinance or equity release, the LVR is the loan amount as a percentage of the valuation only.

### The following LVR restrictions apply to Product, Purpose and Locations

| Product / Purpose                                                                                                                       | Maximum LVR  |
|-----------------------------------------------------------------------------------------------------------------------------------------|--------------|
| Interest Only loan secured by an Owner-Occupied property                                                                                | 95%          |
| Interest Only loan secured by an Investment property                                                                                    | 95%          |
| Equity Release and Debt Consolidation loans                                                                                             | 90%          |
| Commercial Loans                                                                                                                        | 80%          |
| SMSF Loans (see note below)                                                                                                             | 80%          |
| Residential property located in a Metro and Non-Metro High-Density or High-Risk postcode (refer to postcode classification table below) | 90%          |
| Residential property located in a Regional High-Density or High-Risk postcode (refer to postcode classification table below)            | 65%          |
| Commercial property located in a High-Density or High-Risk postcode (refer to postcode classification table below)                      | 65%          |
| Residential or Commercial property located in an excluded postcode (refer to postcode classification table below)                       | Unacceptable |

### The following LVR restrictions apply to Population and Lender Exposure (effective up to and including 11 October 2026)

| Population (ABS SAL or UCL)                                                              | Maximum LVR     |
|------------------------------------------------------------------------------------------|-----------------|
| Less than 3,000                                                                          | Unacceptable    |
| Greater than or equal to 3,000 and less than 5,000                                       | 65%             |
| Greater than or equal to 5,000 and less than 20,000                                      | 80%             |
| Greater than or equal to 20,000                                                          | Product Maximum |
| <b>Concentration Restrictions</b>                                                        |                 |
| Maximum of 2% exposure (at a portfolio level), where the population is less than 20,000. | Unacceptable    |

The above table is to be used in conjunction with the Mortgage Management Tool which relies on ABS statistics and the suburb population in line with Urban Centres and Localities (UCLs) and Suburbs and Localities (SALs).

**The following LVR restrictions apply to Population and Lender Exposure (effective from 12 October 2026)**

| Population (ABS SAL or UCL)                                                              | Maximum LVR     |
|------------------------------------------------------------------------------------------|-----------------|
| Less than 3,000                                                                          | Unacceptable    |
| Greater than or equal to 3,000 and less than 5,000                                       | 50%             |
| Greater than or equal to 5,000 and less than 20,000                                      | 60%             |
| Greater than or equal to 20,000 and less than 60,000                                     | 70%             |
| Greater than or equal to 60,000                                                          | Product Maximum |
| <b>Concentration Restrictions</b>                                                        |                 |
| Maximum of 2% exposure (at a portfolio level), where the population is less than 20,000. | Unacceptable    |

The above table is to be used in conjunction with the [Broker Management Tool](#) which relies on ABS statistics and the suburb population in line with Urban Centres and Localities (UCLs) and Suburbs and Localities (SALs).

## SMSF Residential Properties Acceptable Loan Purpose

Note #1: Residential properties purchased where binding contracts have been exchanged on or after 10 August 2026 are no longer acceptance for SMSF Loans

Note #2: Residential properties used wholly for business purposes can qualify as business real property and must be supported by a commercial valuation where the valuer confirms that the property is wholly and exclusive for business use.

Note #3: Refinancing of residential properties purchased prior to 10 August 2026 are acceptable for SMSF Loans.

## SMSF Commercial Properties Maximum Loan to Valuation Ratio's

| Acceptable Commercial Properties                   | Maximum LVR |
|----------------------------------------------------|-------------|
| Commercial - Torrens Title, Strata Title           | 80%         |
| Industrial - Owner Occupied or Leased              | 80%         |
| Industrial - Tenants                               | 80%         |
| Retail - Owner Occupied or Leased                  | 80%         |
| Retail - Torrens Title, Strata Title               | 80%         |
| Retail - Tenants                                   | 80%         |
| Residential - classified as Business Real Property | 80%         |
| Medical/Dental Suites                              | 80%         |
| Childcare Centre                                   | 75%         |

## SMSF Residential Properties Maximum Loan Size and LVR Matrix

|                                | LVR (%)       | Standard Documentation |             |             |
|--------------------------------|---------------|------------------------|-------------|-------------|
|                                |               | Inner-City/Metro       | Non-Metro   | Regional    |
| Existing Dwelling <sup>1</sup> | 0 - 65.00     | \$5,000,000*           | \$3,500,000 | \$3,500,000 |
|                                | 65.01 - 80.00 | \$5,000,000*           | \$3,500,000 | \$3,500,000 |
|                                | 80.01 - 90.00 | \$3,000,000            | \$3,000,000 | \$3,000,000 |

<sup>1</sup> Maximum LVR where proposed contributions are required for servicing is 80%.

\* Increases from \$3,500,000 to \$5,000,000 effective 6 October 2026.

## SMSF Commercial Properties Maximum Loan Size and LVR Matrix

|                   | LVR (%)       | Standard Documentation |             |             |
|-------------------|---------------|------------------------|-------------|-------------|
|                   |               | Inner-City/Metro       | Non-Metro   | Regional    |
| Existing Dwelling | 0 - 65.00     | \$5,000,000*           | \$3,500,000 | \$3,500,000 |
|                   | 65.01 - 80.00 | \$5,000,000*           | \$3,500,000 | \$3,500,000 |

\* Increases from \$3,500,000 to \$5,000,000 effective 6 October 2026.

## Security Property Postcode Matrix

| Acceptable Security Location Postcodes |                |                                                                                                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

### High Density Postcode Properties

- (a) A high-density postcode property is a strata titled apartment which forms part of a development comprising more than 100 apartments in high density postcodes.
- (b) A development can comprise more than one (1) tower to reach the 100 apartments.
- (c) The following restrictions & conditions apply to this type of security location:
  - (i) Maximum exposure is limited to 10% of the development.
  - (ii) at least 2 of the comparable sales in the valuation report must be from similar apartments outside the actual development and only resales within the complex should form part of the additional comparable sales.
  - (iii) general commentary from the valuer to be noted for such items as oversupply and two-tier marketing if applicable.
  - (iv) minimum floor size 30m<sup>2</sup> excluding balcony & car spaces with at least one bedroom separate from the living areas.
  - (v) Unacceptable Residential Property Types Origin MMS does not accept residential properties for security that is specialised or has a very limited market.
